REMARKS

This is response to the Restriction requirement mailed on June 30, 2005. The Examiner indicated that claims 1-50 were pending in the application. However, Applicant respectfully submits that the Examiner has overlooked a Preliminary Amendment which was filed on the filing date of this case (January 17, 2001). In that Preliminary Amendment, Applicant canceled claims 1-44. Therefore, only claims 45-50 are pending in the application. The Examiner's restriction requirement indicated that claims 45-50 were all drawn to a single invention, and therefore Applicant submits that the Restriction Requirement should be withdrawn. Allowance of claims 45-50 are respectfully requested.
